

Advantages of CERA-DUCT GLOBAL

Advantage 1
Cross-section of duct line
is compact

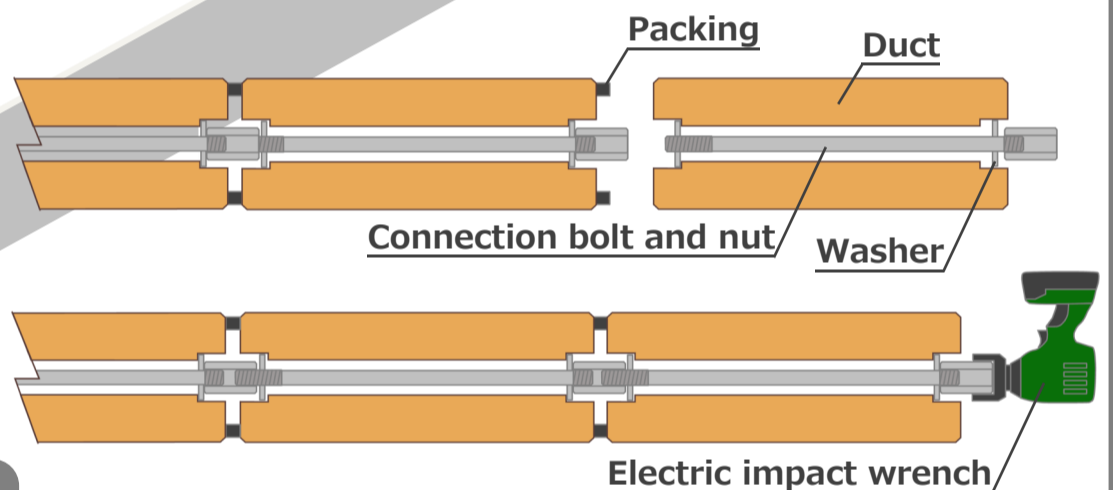

**CERA-DUCT
GLOBAL**

Reinforced
concrete

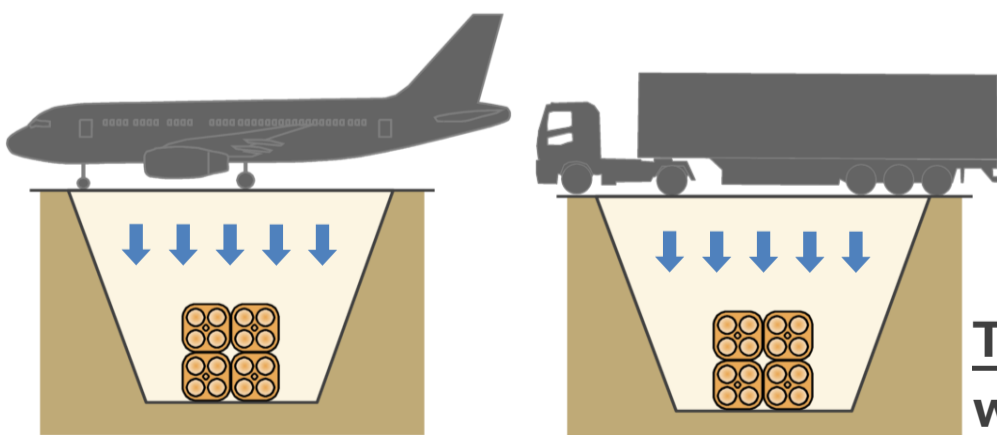

Therefore, small cross-section
of excavation is possible.

Advantage 3
Product construction
is simple

Therefore, anybody can install it for
certain and quickly with ease.

Advantage 2
Compressive strength
is excellent

Therefore, you can backfill directly
without reinforced concrete.

With these three advantages, you can compress construction schedule and cost drastically.
